KAIZEN CON 2027
1 2 3 JAN, 2027
HYATT REGENCY
ASHRAM ROAD, AHMEDABAD

WELCOME MESSAGE

Dear Friends and Colleagues,

It is my privilege to welcome you to **KaizenCon 2027, Robotics & AI: Shaping the Future of GI Surgery, at the Hyatt Regency, Ashram Road, Ahmedabad, from 1 to 3 January 2027.**

Robotic surgery in India stands at an inflection point. Newer, cost-effective robotic platforms are bringing this technology within reach of many more hospitals and surgeons, yet it is not routine in our country. At the same time, artificial intelligence is beginning to change how we learn, plan and operate. The surgeons who act now will shape how these tools serve our patients.

KaizenCon 2027 is a unique AI native meeting, the first of its kind, created to help Indian surgeons adapt to the future. It is designed for general and GI surgeons who perform laparoscopic or robotic surgery, whether you are starting your Laparoscopic or Robotic journey, or already established in it. Our aim is practical: clear evidence, honest discussion, and skills you can take back to your own operating room.

I thank our endorsing associations, academic partners and distinguished national and international faculty for their support. I warmly invite young surgeons to share their work through video abstracts.

Early-bird registration and video abstract submissions close on 15th November 2026. Come to Ahmedabad, welcome the New Year with us, and be part of the change.

With warm regards,

Dr. Sanjiv Haribhakti
Congress President,
KaizenCon 2027

ROBOTICS & AI
SHAPING THE FUTURE OF GI SURGERY
EVIDENCE • TECHNIQUE • INTELLIGENCE

KAIZEN CON 2027
1 2 3 JAN, 2027
HYATT REGENCY
ASHRAM ROAD,
AHMEDABAD

PARTNER ASSOCIATIONS

SSAT — The Society For Surgery Of The Alimentary Tract
ALRS — Laparoscopic & Robotic Surgeons of Great Britain & Ireland
Gujarat State Surgeons Association 1974
ARIS — Association Robotic Innovative Surgeons

Unique, AI native, evidence based meeting

DAY 1

Intelligence

Preconference Symposium:
MIS HPB Oncology from the Masters

AI Literacy for Healthcare:
A six-hour basic literacy course

AI vs Surgeon:
The Clinical Decision Challenge

DAY 2

Evidence

Evidence Hall:
13 Lap vs Robot debates across five specialties

Master Talks:
Keynote and Oration

TED Talks:
From Robotic to Intelligent Surgery

Technique Hall:
Master and invited videos

Video Abstracts and Best Video Awards

DAY 3

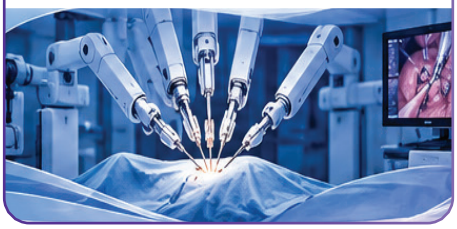

Technique

Live Robotic GI Surgery

Robotic telesurgery from remote centres

Expert evidence panel for every case

Closing:
KAIZENCON proceedings: From Evidence to Responsible Adoption

Call for invited Videos & Video Abstracts
Closes on 15th November, 2026

ROBOTICS & AI

HYATT REGENCY
ASHRAM ROAD,
AHMEDABAD

INTERNATIONAL FACULTY *In-person*

Two of the Worlds Finest and Pioneer Laparoscopic Liver Surgeons

Dr. Goro Honda
(Japan)

Co-author - International Guidelines
on MIS liver resection

Dr. Ho-Seong Han
(South Korea)

First Total Laparoscopic Right Donor
Hepatectomy in the World

Learn precision HPB surgery from one of the world's finest MIS liver Surgeons.

INTERNATIONAL FACULTY *On-line*

Editor-in-Chief,
World Journal of Surgery

Dr. Sherry Wren
(USA)

Professor and Director of
Global Surgery,
Stanford University, USA

CEO, Vattikuti Foundation,
Detroit

Dr. Mahendra Bhandari
(USA)

Padma Shri Awardee;
Former Director,
SGPGIMS, Lucknow

World's most experienced
21,000+ robotic
prostatectomy

Dr. Vipul Patel
(USA)

First Robotic
tele-surgery in USA

NATIONAL FACULTY

Dr. Abhijit Chandra	*Lucknow*
Dr. Adarsh Chaudhary	*Gurugram*
Dr. Ajit Kukreja	*Ahmedabad*
Dr. Anil Kumar Agarwal	*New Delhi*
Dr. Anu Behari	*Lucknow*
Dr. Avanish Saklani	*Mumbai*
Dr. Avinash Supe	*Mumbai*
Dr. C. Palanivelu	*Coimbatore*
Dr. Chirag J. Desai	*Ahmedabad*
Dr. Deepak Govil	*New Delhi*
Dr. G. V. Rao	*Hyderabad*
Dr. Govind Nandakumar	*Bengaluru*
Dr. Kalayarasan Raja	*Chennai*
Dr. Kartik Sutariya	*Rajkot*
Dr. Kaushal Anand	*Ahmedabad*
Dr. Mahendra Narwaria	*Ahmedabad*
Dr. Mahesh Goel	*Mumbai*
Dr. Mohit Bhandari	*Indore*
Dr. P. Radhakrishnan	*Chennai*
Dr. Parveen Bhatia	*New Delhi*
Dr. Pawanindra Lal	*New Delhi*
Dr. Pramod Shinde	*Nashik*
Dr. Rajesh Bhojwani	*Jaipur*
Dr. Rajesh Shrivastava	*Vapi*
Dr. Rajiv Mehta	*Surat*
Dr. S. P. Somashekhar	*Bengaluru*
Dr. Sadiq S. Sikora	*Bengaluru*
Dr. Saumitra Rawat	*New Delhi*
Dr. Sharad Desai	*Miraj*
Dr. Subhash Khanna	*Guwahati*
Dr. Vikram Chaudhary	*Mumbai*
Dr. Vikram Lotwala	*Surat*
Dr. Vinayak S. Rengan	*Chennai*
Dr. Vivek Bindal	*New Delhi*
Dr. Zaheer Nabi	*Hyderabad*

ROBOTICS & AI
SHAPING THE FUTURE OF GI SURGERY
EVIDENCE • TECHNIQUE • INTELLIGENCE

KAIZEN CON 2027
1 2 3 JAN, 2027
HYATT REGENCY
ASHRAM ROAD,
AHMEDABAD

WHO SHOULD ATTEND?

- General GI and GI Oncology Surgeons
- Residents and Trainees in General and GI Surgery
- Surgeons doing or planning to learn Lap / Robotic GI Surgery
- Every surgeon preparing for the future of surgery

WHY ATTEND?

Learn from the masters
International and national experts share how they do it

AI you can start using
A practical, jargon-free course on using AI safely in clinical practice

Debates, not lectures
Every Lap vs Robot debate gives the best evidence, a counterview and audience vote

The Kaizen Evidence Matrix
Each procedure is graded on quality of evidence, outcome advantage and patient selection

Watch it live
Live robotic surgery and telesurgery, discussed by an independent evidence panel

KaizenCon 2027 Evidence Statement
Consensus on evidence-based patient and procedure selection, published as digital proceedings

CALL FOR VIDEO ABSTRACTS

Present your laparoscopic or robotic surgical video in the Technique Hall and compete for the Best Video Awards (Lap and Robotic).

Last Date for Video Abstract Submission and Early-Bird Registration

15th November 2026

ROBOTICS & AI
SHAPING THE FUTURE OF GI SURGERY
EVIDENCE • TECHNIQUE • INTELLIGENCE

Scientific Program

KAIZEN CON 2027
1 2 3 JAN, 2027
HYATT REGENCY ASHRAM ROAD, AHMEDABAD

DAY 1 | FRIDAY, 1ST JAN 2027 — *Intelligence*

10:00 AM - 12:30 PM

PRECONFERENCE SYMPOSIUM: MIS HPB Oncology from the Masters

In academic partnership with IHPBA India

- Transition from Open to MIS Whipple's Pancreatoduodenectomy
- MIS Hepatic Resections: international masters share their techniques

Dr. Adarsh Chaudhary, Dr. C. Palanivelu, Dr. Sadiq S. Sikora, Dr. Kalayarasan Raja, Dr. Vikram Chaudhary
Prof. Ho-Seong Han (Korea) | **Prof. Goro Honda** (Japan)

01:00 PM - 07:00 PM

AI LITERACY COURSE FOR HEALTHCARE:

A course for surgeons, physicians and all healthcare professionals

Session 1 AI Without the Jargon

- Introduction to AI, machine learning, deep learning and neural networks
- LLMs and generative AI: how they work, hallucinate and reason

Session 2 The Augmented Physician

- From prompt to practice: scribe, documentation, evidence and communication
- Safe clinical use: hallucinations, verification, privacy and the human in the loop

Session 3 AI Vision for Diagnosis

- AI in radiology: detection, segmentation and quantification
- AI in GI endoscopy: detection, characterisation and decision support

Session 4 Clinical AI: Before Trouble Strikes

- Predictive AI for risk assessment, triage, deterioration and early warning
- Clinical decision support, retrieval-augmented generation and human oversight

Session 5 Clinical AI: Trust, Verify, Decide, Augment

- Regulation, bias, explainability, accountability and privacy
- AI for academics: data analytics, presentations and publications

Session 6 From Robotic to Intelligent Surgery

- Surgical video AI, computer vision and recognition of anatomy and operative events
- Intraoperative decision support, training and performance analytics

Closing Panel What AI Can I Use on Monday Morning?

- What to adopt now, what remains experimental, and what hospitals must establish before deployment

07:00 PM - 08:00 PM

AI vs SURGEON: A CLINICAL DECISION CHALLENGE

Curated clinical cases. Blinded answers from expert surgeons and AI.
The audience votes, followed by a final debrief.

DAY 2 | SAT, 2ND JAN 2027

Insightful Sessions

07:30 AM - 08:45 AM — Breakfast Session: Meet the Professors

Training & Skilling Opportunities for Trainees, Early- and Mid-career Surgeons

Venue: Open Mic Podium, Exhibition Area

Format: 8 minutes per talk, followed by open Q&A

07:30 AM - 08:30 AM — Course on Advanced Use of ChatGPT and Claude

Plugins, Connectors, GenAI Assistants and Agents

Venue: Technique Hall

Course Director: Dr. Rajiv Mehta

Course faculty: Dr. Vinayak Rengan

Format: Demo-led: live demonstrations on a surgeon's real workflow

Delegates are required to bring a laptop with ChatGPT and Claude logged in

AI and Startup Pavilion

Dates: 1 – 3 January 2027 (all conference days)

Venue: Exhibition Area

- AI and health-med startups demonstrate their ideas, prototypes and products
- Discussion forum on the KaizenCon App: new ideas and collaborations

12:30 PM - 02:30 PM — AI and Startup Challenge

Date: Saturday, 2 January 2027

Venue: Open Mic Podium, Exhibition Area

Awards

- Best Health-Med Startup
- Best AI Healthcare Product

Key Dates

- **Last Date for entries:** 1st December 2026
- **Shortlist announced:** 15th December 2026

07:00 PM - 08:00 PM — Beyond the Borders: International Online Symposium

Date: Saturday, 2 January 2027

Venue: Evidence Hall

Evidence-Based Medicine	**Dr. Sherry Wren**
Robotic Training: Newer Platforms	**Dr. Mahendra Bhandari**
Robotic Telesurgery: The Future	**Dr. Vipul Patel**

DAY 2 | SAT, 2ND JAN 2027

Evidence

09:00 AM - 06:00 PM — **EVIDENCE HALL: Robot vs Lap Debates: What Does the Evidence Really Say?**

Each debate: clinical question → audience poll → best evidence and technical pearls → counterview → moderator's interpretation → audience vote → Kaizen Evidence Matrix

1. Foregut: Where Robotics Change the Operation?

- Fundoplication for primary, redo and complex GERD
- Achalasia cardia: POEM vs MIS Heller myotomy
- Cancer oesophagus and stomach

2. Bariatric Surgery: Value or Technology?

- Sleeve gastrectomy
- Revisional bariatric surgery: sleeve to RYGB / OAGB

3. Colorectal Surgery: Does the Robot Matter Most in the Pelvis?

- Ventral rectopexy for rectal prolapse
- TME for rectal cancer

4. Master Talks

- Step-up approach in infected pancreatic necrosis: three decades of outcomes
- Learning curves, training and safe adoption of MIS GI surgery

5. Keynote and Oration

- Cost-effectiveness of robotic surgery
- From open to laparoscopic to robotic liver surgery

Industry Symposium: Newer Robotic Platforms

6. Hernia & Abdominal Wall Reconstruction: The Robotic Sweet Spot?

- Bilateral inguinal TAPP: innovation or overkill?
- Small ventral hernia: IPOM+ vs eTEP-RS
- Large complex incisional hernia

7. HPB: Has Minimally Invasive Complexity Crossed the Evidence Threshold?

- LPJ and head coring for chronic pancreatitis: open vs MIS
- Radical cholecystectomy for carcinoma gallbladder: Lap vs Robotic
- MIS vs open: Radical distal pancreatectomy (RAMPS)

8. Panel: Training & Credentialling: Who Is Ready to Operate the Robot?

9. TED Talks: From Robotic Surgery to Intelligent Surgery

- AI before, during and after surgery; tele-robotic surgery: Indian Scenario

06:00 PM - 07:00 PM — **Inaugural Function and The Kaizen 2027 Evidence Statement**

09:00AM - 05:00PM TECHNIQUE HALL

- **Master Videos and Invited Videos:** laparoscopic and robotic
- **Video Abstracts:** competing for the Best Video Awards (Lap and Robotic)

08:00 PM onwards — **Evening: Gala Banquet and Entertainment**

DAY 3 | SUN, 3RD JAN 2027

Techniques

Evidence in Action: *Live Robotic Surgery & Telesurgery*

Where evidence meets technique. For every case, national experts discuss patient selection, alternative approaches, what the robot specifically adds, conversion strategy and the evidence, while the operating team demonstrates the technique.

08:00 AM - 02:00 PM

Session 1 · Live Robotic Surgery

- **Safe robotic cholecystectomy:** docking and ports, safe dissection, critical view of safety
- **Robotic inguinal hernia (TAPP):** myopectineal orifice, mesh placement, peritoneal closure

Session 2 · Live Robotic Surgery Telecast

- **Complex ventral hernia, eTEP / TAR:** retromuscular spaces and component separation
- **Robotic gastric bypass:** the nuances of bypass surgery

Session 3 · Live Robotic Surgery

- **Robotic eTEP-RS for small ventral hernia:** choice of plane, defect closure
- **Robotic fundoplication:** mediastinal dissection, crural repair, wrap strategy

Session 4 · Live Robotic Surgery Telecast

- **Robotic low anterior resection:** TME, autonomic nerve preservation, splenic flexure mobilisation
- **Robotic oesophagectomy (thoracic phase) or robotic distal pancreatectomy / RAMPS**

Evidence panel for every case

- Is robotics justified for this patient and this pathology?
- Training implications and team readiness

Closing: From Evidence to Responsible Adoption

- Five take-home principles for selecting robotics and telesurgery
- The Kaizen 2027 Evidence Statement and digital conference proceedings

Live and telesurgery cases are subject to case suitability and all regulatory, institutional, technical and patient-safety clearances.

02:00 PM - Conference Closes

DISCOVER AHMEDABAD

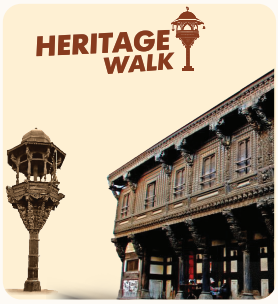

INDIA'S FIRST UNESCO WORLD HERITAGE CITY

Sabarmati Ashram
Gandhi's home and the heart of India's freedom movement

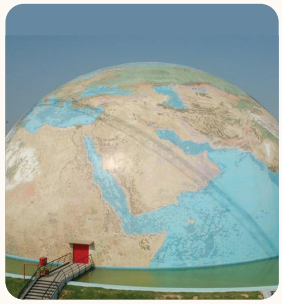

Sabarmati Riverfront & Atal Bridge
evening walks across the striking footbridge

Old City Heritage Walk
centuries-old pols, carved havelis and hidden temples

Adalaj Stepwell
five storeys of intricately carved sandstone (18 km)

Science City
India's Robotics Gallery and Aquatic Gallery, a must for KaizenCon delegates

BEYOND THE CITY

GUJARAT HIGHLIGHTS

Statue of Unity
The world's tallest statue (~200 km)

Rani ki Vav, Patan
UNESCO-listed queen's stepwell, featured on the ₹100 note (~125 km)

Modhera Sun Temple
An 11th-century masterpiece (~100 km)

Rann Utsav, Kutch
The White Desert under a full moon, held Nov–Feb (~400 km)

Gir National Park
The last home of the Asiatic lion (~200 km)

Somnath & Dwarka
Two of India's most revered temples on the Arabian Sea (~300 km)

Thol & Nal Sarovar
Flamingos and Migratory birds, at their peak in January (40–65 km)

January is perfect for Rann Utsav and birding!

Kuch Din Toh Guzariye Gujarat Mein!
